**RULES/CONDITIONS TO BE ADMITTED:**

(A) Each person may submit a maximum of one 'research pitch' proposal;

(B) The research work and pitch must be original and entrant's own work;

(C) The Research Pitch is a monologue and must be made by a single speaker, who will be clearly in focus at any moment;

(D) The research Pitches have to be recorded: Researchers must present the topic of their research, the problem they have identified, how their research contributes to look for a solution and the impact expected in society in general, and in the academic and research community, in particular;

(E) The video recording can be made using any kind of device (cell phones, webcams, etc.) and can be edited afterward;

(F) The background of the video will be preferably flat not to distract the viewer's attention. Both the quality of video and audio must be high definition;

(G) Maximum length: 3 minutes;

(H) Audio-visual aids: Only 3 static slides can be used as elements of support for the Research Pitch. The use of other elements (video or audio files) or physical objects is not permitted. The slides should occupy just one corner of the image in the recording, never blocking the image of the speaker;

(I) Language for the videos: All presentations must be in correct English. In case another European language is used, it should be subtitled in correct English;

(J) The research pitch title, author name, the university logo and the Compostela Group of Universities logo must be shown at the beginning of the recording on a full black background for 3-5 seconds;

(К) In addition to the logo of the university, the logo of the Compostela Group should be present in the whole recording. That can be done through a small reproduction of the logo in one of the corners of the screen or in a different way.
