INFORMATION ABOUT THE COMPANY/INSTITUTION

LOGO	
WEBSITE	www.damrc.com
INFORMATION ABOUT THE CITY AND THE AREA WHERE THE COMPANY/ISTITUTION IS LOCATED (General information about SECURITY, ACCOMODATION, PUBLIC TRANSPORT...)	<p>Herning was established at the beginning of the 1790s, during the period of heath reclamation, as a commercial center providing goods and services to the farmers in the area. A textile industry later developed in and around the town. This industry was once Herning's principal economic activity. Today the town of Herning has a more diverse industrial base. Herning became a market town in 1913. Herning has twice been awarded the title of 'Danish City of Year'.</p> <p>Herning is the hub for both road and rail transport in central Jutland. The rail lines crossing the peninsula of Jutland intersect at Herning with connections to Vejle, Aarhus, Esbjerg and Holstebro. There are also several daily trains to Copenhagen. Next proximity to International Airport Billund.</p> <p>Denmark is considered an extremely safe country to visit. It is a country with almost no risk of natural disasters and unlike most other European countries, the crime rates in Denmark are low and common sense should keep you out of any trouble.</p>
GENERAL INFORMATION ABOUT THE COMPANY/INSTITUTION	DAMRC is a research and development center for advanced manufacturing technologies that develops and transforms the latest knowledge into practical solutions in close collaboration with the universities for the benefit of Danish industrial companies' global competitiveness.
SIZE OF THE COMPANY (EMPLOYEES)	As per May 1 2023: 21 employees
NUMBER OF PEOPLE AT THE DEPARTMENT WHERE THE TRAINEESHIP WILL TAKE PLAKE	10
MAIN ACTIVITY OF THE COMPANY/INSTITUTION	Research and development with offset in milling and turning processes. We turn the very latest knowledge into practical solutions and industrially relevant training within new materials and manufacturing.
A BRIEF EXPLANATION OF MAIN PROJECTS	<p>Examples of projects operated by DAMRC:</p> <ul style="list-style-type: none"> • Smart industry. A project created to inform and create possibilities within upgrading older CNC machines to industry 4.0 • Cutting Edge. A project working with CNC tools to improve cutting abilities with high tech surfaces and coatings • Cost of coolant. A project to evaluate importance of coolant pressure and flow regarding electricity costs vs. surface quality and tool wear • Vibratory stress relief – next generation. Industrializing VSR equipment and processes to implement easily and effectively in the industry

Universidad del País Vasco Euskal Herriko Unibertsitatea

VICERRECTORADO DE EUSKERA, CULTURA E INTERNACIONALIZACIÓN
VICERRECTORATE FOR BASQUE, CULTURE AND INTERNACIONAL RELATIONS

PREVIOUS COLLABORATION IN INTERNSHIP/TRAINING PROGRAMMES?	We are on an ongoing basis collaborating with both local interns as well as interns from the rest of Europe. For a long time we have collaborated with students from Spans and the Basque country with great and interest and benefit.
