

GLOBAL TRAINING PROGRAMME

FORM 1 APPLICATION FORM: GLOBAL TRAINING PROGRAMME

REFERENCIA: EHU12

CORPORATIVE INFORMATION			
Name of the company		DOOR architecten	
Contact Person		Ane Beraza	Email: <input style="width: 100px;" type="text"/>
Location	Country	The Netherlands	
	City	Amsterdam	
	Address	Kastrupstraat 11C, 1043CR	
Sector		Architecture	
PROPOSED INTERNHISP INFORMATION			
Number of trainees to host (in case you want more than 1 trainee, indicate the different departments where they will work)		2	
Extension time (extra months and salary) OPTIONAL SEE DOCUMENT: <i>"FORM 2_Global Training 2023 extension preliminary agreement"</i>	Extra months	If by the end of the first six months both the company and the intern wish to extend the stay, an extension of six months could be offered.	
	Monthly payment for extra months (between 0-1600€/month)	During the extension, the monthly payment would be: € 1.600	
INTERNSHIP/PLACEMENT INFORMATION			
Department		Architecture / Urban design / Interior design	
Description of project/activities		<p>Our team is formed by professionals with a broad-based knowledge and we usually work in a flexible way, shifting tasks as needed.</p> <p>This internship position will be no different, you will have the chance to work on all the fields during your time with us (designing, drawing, 3D modelling, presentations, research, urban plans, technical drawings, building site visits, etc.).</p> <p>It is important to point out that we do not intend to shift fields or tasks every day/week so that everyone gets the chance and time to really understand the project-situation they are facing.</p>	
COMPETENCES, SKILLS and EXPERIENCE REQUIREMENTS			
Requested profile(s) information (Studies, previous experience, language skills, other skills...)		<p>We are looking for someone who is talented, curious and courageous. Always willing to provide input and feedback. A person who is a skilled conceptual designer, interested in circular and sustainable design and with excellent graphical skills. The ideal candidate is flexible and enthusiastic: a real team player willing to learn a lot.</p> <p>Work experience is not required, but will be taken into consideration together with your academic background and portfolio.</p>	

	<p>Our working languages are English and Dutch (even though we speak many more!), therefore you need to have a reasonable knowledge of one or the other.</p> <p>We work with the following design software:</p> <ul style="list-style-type: none"> • Adobe suit: Photoshop, Illustrator and InDesign. • Revit: Revit is our main design tool, we don't require a big knowledge of it, but at least the candidate should be open to learn. • Sketchup: Not required but would be a plus.

INFORMATION ABOUT THE COMPANY/INSTITUTION

<p>LOGO</p>	
<p>WEBSITE</p>	<p>doorarchitecten.nl</p>
<p>INFORMATION ABOUT THE CITY AND THE AREA WHERE THE COMPANY/ISTITUTION IS LOCATED (General information about SECURITY, ACCOMODATION, PUBLIC TRANSPORT...)</p>	<p>We are located next to the Amsterdam Sloterdijk train station, in what we call the Tuin van Bret.</p> <p>Tuin van Bret is the first circular office area in the Netherlands. It was founded in 2016 by a group of entrepreneurs (among which DOOR architecten) who have very different backgrounds, but the same objective: moving away from the (dead end) linear economy to a circular economy. Our purpose is to be an accelerator and facilitator of that process in our own Amsterdam Sloterdijk area.</p> <p>Tuin van Bret takes the form of a small village made out of reused sea containers. Our office is located in the PITlab, just in the middle of the village. We are proud of our singular office and environment. We hope you will like and enjoy it as well!</p>
<p>GENERAL INFORMATION ABOUT THE COMPANY/INSTITUTION</p>	<p>We are a growing sustainable architectural practice based in Amsterdam, founded by Karin Dorrepaal and Saskia Oranje in 2014. We focus on transparent communication between client-designer-user, sustainability and user friendliness. We believe that real sustainability is a result of collective development, which translates into clear shapes, beautiful spaces and fine urban planning. We achieve this though a strong hands-on strategy that begins with a simple first step: circular thinking and action as our daily practice.</p> <p>doorarchitecten.nl/over-ons</p>
<p>SIZE OF THE COMPANY (EMPLOYEES)</p>	<p>DOOR architecten is a true melting pot. We are a group of 27 professionals with completely different backgrounds. The office has a horizontal and approachable organization, giving the chance to everyone to be heard. We will certainly be delighted to welcome you and your ideals!</p>
<p>NUMBER OF PEOPLE AT THE DEPARTMENT WHERE THE TRAINEESHIP WILL TAKE PLAKE</p>	<p>We work together in teams of different sizes depending on the project.</p>

<p>MAIN ACTIVITY OF THE COMPANY/INSTITUTION</p>	<p>We are committed to making the built environment future-proof. That is why researching materials, methods and tools is part of our DNA. Sharing knowledge, being up to date and looking for innovative solutions is part of our design process. In addition, we see our role as architects broader, where expectations and requirements from resident to contractor come together in a balanced design and beautiful architecture.</p>
<p>A BRIEF EXPLANATION OF MAIN PROJECTS</p>	<p>This is a sample of some of our current projects:</p> <ul style="list-style-type: none"> • Several new collective sustainable housing projects in Amsterdam and surroundings. • The circular renovation of the city hall and a series of public utility buildings in Eindhoven. • The design of the new circular and sustainable building for the municipality of Krimpenerwaard. • The renovation of 350 apartments in Utrecht and 150 in Purmerend. • Several circular interior design projects for offices. • We regularly take part in competitions for housing and utility buildings in the framework of circular design, so there are always new projects coming in! <p>doorarchitecten.nl/projecten</p>
<p>PREVIOUS COLLABORATION IN INTERNSHIP/TRAINING PROGRAMMES</p>	<p>We have successfully worked together with the Global Training Program for many years and we frequently collaborate with students from TU Delft. We are happy to say that many of them are still with us after several years.</p>
