Early Childhood Education / Primary Education / Social Education

[www.ehu.eus](http://www.ehu.eus)

## Greetings from the Dean of the Faculty

Welcome to the Faculty of Education in Bilbao, an integral part of the UPV/EHU. At the Faculty of Education our collective mission is to foster collaboration and excellence in our pursuit of a high-quality, sustainable, and inclusive academic environment.

The Faculty of Education in Bilbao (UPV/EHU) provides a comprehensive array of Bachelor's Degrees tailored to meet diverse educational needs. These include Bachelor's Degrees in Primary Education, Trilingual Primary Education, Early Childhood Education, Trilingual Early Childhood Education and Social Education. Furthermore, our institution offers an extensive catalogue of Master's Degrees and Post-Graduate programmes designed to foster the specialisation and development of aspiring researchers in the field of education along with the ongoing professional development of practitioners seeking to enhance their expertise.

One of the cornerstones of our institution is the internationalization of our students, faculty members, researchers, and research groups. We have developed an enticing mobility program that facilitates exchange opportunities within the framework of renowned initiatives such as Erasmus, Sicue, among others.

Within our institution, we have established dedicated infrastructures to foster innovation in both teaching and research, as well as to ensure the delivery of high-quality education. Among these facilities are numerous science laboratories, a school vegetable patch, the 0-3 years workshop, and our pioneering MakerLab - the first Education Maker space housed within a Faculty of Education.

It is a lively and leading Faculty in various fields of educational research and knowledge transfer. Our esteemed faculty members and research staff are organized into various research groups, each specializing in distinct fields of educational inquiry. Through their rigorous scholarship and impactful publications, they contribute significantly to the advancement of knowledge within the scientific education community. They actively engage in efforts to promote awareness and understanding of their work among both the educational community and society at large. Through targeted initiatives, they strive to facilitate the transfer of knowledge generated within our institution to address pressing challenges and enhance educational practices.

We therefore aim to actively contribute to the advancement of education, endeavoring to cultivate professionals who possess comprehensive competence in this field. Our aim is to nurture educators, teachers, and researchers who are dedicated and adept at addressing the challenges of contemporary and future education with efficiency and innovation. Moreover, beyond serving as a platform for reflective discourse and dynamic, high-quality educational research, the Faculty fosters the establishment of collaborative synergies among social and institutional stakeholders to foster a sustainable, evidence-based education system rooted in principles of justice, respect, and solidarity.

# Excellent preparation in Education and Social Education

The Faculty of Education of Bilbao provides programs in Early Childhood Education, Primary Education and Social Education. We are the only public center in Bizkaia dedicated to the training of educators and teachers.

The majority of our professors hold doctoral degrees and are actively engaged in research groups. Following their participation in the Teaching Program (Docentiaz) for the assessment of their teaching activities, numerous professors have achieved an outstanding rating.

We extend an invitation for you to join our faculty, as we believe your involvement will enrich both our institution and your own academic journey. Students play a fundamental role in shaping the vibrant life of our university centre; their ideas, interests, and suggestions are invaluable. Thus, we encourage you to actively engage in the activities and initiatives of our Faculty.

## BACHELOR'S DEGREE IN EARLY CHILDHOOD

### Area of Knowledge: **Social and Legal Sciences**

The Degree in Childhood Education qualifies individuals to work as educators for children aged 0 to 6 years. While attendance at this age range is not mandatory, it is customary for children to attend educational institutions. The primary goal of this degree program is to prepare proficient professionals capable of teaching within bilingual settings.

In the Bachelor's Degree in Childhood Education you will undergo comprehensive academic training encompassing both theoretical knowledge and practical skills required to meet the demands of this significant endeavor. You will acquire essential tools to foster the holistic development of children, particularly through art, science, ethics, social content, linguistics, physical activity, mathematics, and technology.

Furthermore, you will have the opportunity to select from five specializations: Foreign Language Education; Musical Education; Curriculum and Educational Resources; Linguistic Diversity in the Classroom; and Innovation in Early Childhood Education.

Beginning in the second year, through mandatory internships, you will actively engage in educational projects implemented across various educational institutions, gaining firsthand experience and practical skills.

If you are passionate about nurturing the personality, self-esteem, nature, values and emotional intelligence of children aged 0 to 6, if you are eager to explore children's curiosity and foster their interest in learning through projects and workshops, and if you believe in the profound impact of early childhood education on society's improvement, then the Degree in Early Childhood Education is your optimal choice.

[Here](#) you will find additional information about the programme.

### **This degree will qualify you to...**

To foster the development of personality and the emotional, social and cognitive growth of children; to understand the evolution of language in early childhood; to facilitate the construction of autonomous learning; to promote respect for individual, social and cultural diversity; to encourage positive coexistence both inside and outside the classroom; to guide parents in family education; and to comprehend the functions, possibilities and limitations of education in contemporary society.

Upon completion of the degree, additional 87 ECTS are required to obtain the Primary Education degree.

### **Professional opportunities:**

Graduates of Early Childhood Education possess diverse career prospects, including:

- Teaching in schools, specialising in children aged 0-3 and 3-6 years.
- Employment in early childhood care services and programs, aiding families in accessing leisure and cultural services, such as toy libraries and children's libraries.
- Developing curricular and informational materials.
- Providing educational support services to schools.
- Engaging in the provision of complementary educational services.
- In the offer of complementary educational services

### BACHELOR'S DEGREE IN EARLY CHILDHOOD EDUCATION

At the undergraduate level, you may choose one of the following options:

- Basque
- Trilingual (Basque-Spanish-English).

It is essential to present the B2 proficiency certificate in Basque to enrol.

# BACHELOR'S DEGREE IN PRIMARY EDUCATION

## Area of Knowledge: Social and Legal Sciences

Primary education comprises the period of compulsory education from 6 to 12 years of age. The objective of this stage is to contribute to the personal and socio-cultural development of children, as well as to lay the foundations for lifelong learning. The figure of the teacher is fundamental at this stage.

In the Bachelor's Degree in Primary Education you will receive the academic training, both theoretical and practical, necessary to face this great challenge. You will internalize the necessary tools to promote the personal development of children, specifically in areas such as art, science, ethics, content related to society, linguistics, movement, mathematics and technology.

You can opt for five specializations: Foreign Language; Music Education; Curriculum and Resources; Linguistic Diversity in the School; and Innovation in the Elementary School. The Foreign Language and Music Education appointments will qualify you to teach English or music.

In addition, starting from the second year, with the mandatory internship, you will participate firsthand in educational projects that will be developed in various schools.

### BACHELOR'S DEGREE IN PRIMARY EDUCATION

At the undergraduate level, you may choose one of the following branches:

# BACHELOR'S DEGREE IN SOCIAL EDUCATION

## Area of Knowledge: **Social and Legal Sciences**

In the field of social education, the concepts of solidarity, inclusion, human rights, education and social awareness are fundamental. Indeed, education is not only based on the acquisition of theoretical knowledge, but also in the non-formal educational field, which contributes to the development of individual, intellectual and moral competencies.

In the Degree in Social Education you will learn, therefore, to analyze, evaluate and design processes of socio-educational intervention in different contexts, both for groups and individuals, paying vital attention to people with greater needs or at risk of social exclusion. And you will have the necessary tools to help improve the quality of life of the most needy people and groups.

In addition, during the third and fourth years, you will participate in mandatory internships, allowing you to engage first-hand in various educational projects within foundations and associations. You will also have the opportunity to choose from two minors: Social Insertion or Social Dynamization and Community Work.

**If you possess a strong social conscience, solidarity, empathy, and excellent social skills, and if you are interested in cooperation and teamwork with a belief in making the world a better place, the Degree in Social Education is your ideal option.**

[Here](#) you will find additional information about the programme.

### **This degree will qualify you to...**

Understand the theoretical bases (psychological, sociological and pedagogical) of socio-educational intervention; analyze and evaluate social reality; develop innovation processes; design socio-educational projects and programs; and organize and manage teams, resources, services and organizations, using the most appropriate techniques and strategies for problem solving.

Upon completion of the degree, additional 87 ECTS are required to obtain the Social Worker degree.

### **Professional opportunities:**

You will have many options in the following areas:

- Social and labor insertion: workshop schools, labor orientation and insertion services and occupational training.
- Social services and social welfare: groups at risk of social exclusion, addressing drug addiction, supporting the elderly and people with disabilities, engaging in educational interventions, protecting minors, participating in mediation programs, and managing shelters.
- Culture and leisure: Providing continuing education for the elderly, promoting active aging programs, facilitating leisure activities, operating civic centers, engaging in development cooperation, managing cultural classrooms and museums, and conducting community interventions.

The degree can be taken in both Basque and Spanish. It is advisable to have a B2 level when accessing the degree in the languages used for instruction.
