

ibmec

Ibmec

Since 1970, we have witnessed Brazil's transformation. However, one thing that has remained constant is our desire and commitment to creating a different future. Over 54 years of pioneering, we have offered the market a unique educational experience, continually updated with the latest global trends. This experience equips our students with the knowledge, attitude, determination, and courage needed to innovate, positively impact society, and break boundaries.

Our educational journey is marked by successful choices. We were the first institution in the country to create an MBA in Finance, in 1985, in Rio de Janeiro. By 1991, our courses had expanded to Belo Horizonte, reached Brasília in 2008, and in 2017, we established ourselves in São Paulo, currently operating two campuses: Campus Faria Lima and Campus Paulista.

Enhancing Ibmec's international education standards, we became part of YDUQS in 2019, joining the second largest educational group in Brazil. We take pride in offering the market a robust portfolio of Undergraduate, Graduate, Professional Master's, Extension, and Custom Corporate Programs, consistently earning top evaluations from the Brazilian Ministry of Education, Guia do Estudante, and endorsements from prestigious institutions both in Brazil and abroad.

Reginaldo Nogueira
Director of Ibmec

Exchange Program

INCOMING STUDENTS

Foreign students from partner universities can spend one or two semesters at Ibmec, taking courses in English and/or Portuguese. Students who spend an academic year at Ibmec and complete at least six courses, each with 80 contact hours, will receive a certificate!

OUTGOING STUDENTS

Among the experiences Ibmec offers its students, the opportunity to live in and explore new countries and cultures is one of the richest. This allows them to expand their knowledge and adapt to multicultural environments.

Ibmec students can study for one or two semesters at partner universities. Upon returning to Ibmec, they can request the transfer of credits for the courses taken. Incoming students.

International Module

An exclusive program for Global and LL.M. students, creating connections and international mobility opportunities with Ibmec's partner institutions. It consists of an intensive business and law course, allowing the application of theory in practice, alongside professors with degrees from top institutions.

International Journeys

With unique and exclusive programs, our students have the opportunity to engage in true immersions in other countries, visiting major multinational companies, networking, and being introduced to new opportunities. The offerings of these journeys may vary.

Collaborative Spirit and Development

Building a collaborative network is one of the distinguishing features of our courses. We encourage the integration of students and professors, promote discussions on market topics, and ensure that qualified networking becomes a reality.

STATE-OF-THE-ART INFRASTRUCTURE

To help our students achieve their goals and career leadership, we offer comfort, convenience, and excellence through:

- Spacious common areas;
- Study rooms;
- Premium rooms;
- Computer labs;
- Library.

NETWORKING

To promote networking and discussion on market demands, we provide our students with:

- Activities with renowned professionals;
- Exclusive lectures and workshops;
- Personalized classroom contact with individual identification perspectives;
- Interaction with relevant business leaders and entrepreneurs.

CENTER FOR APPLIED STUDIES AND RESEARCH

The Center for Applied Studies and Research operates across 4 Ibmec campuses and engages in projects across business, international relations, technology, and other areas.

There are students, coordinators, faculty members, and corporate staff involved in the Center.

ALUMNI

Here, our alumni have the opportunity to participate in our exclusive events and activities. Some of the benefits they are entitled to include:

- Networking;
- Special conditions for postgraduate, MBA, and master's scholarships;
- Lifetime career mentorship;
- Career development.

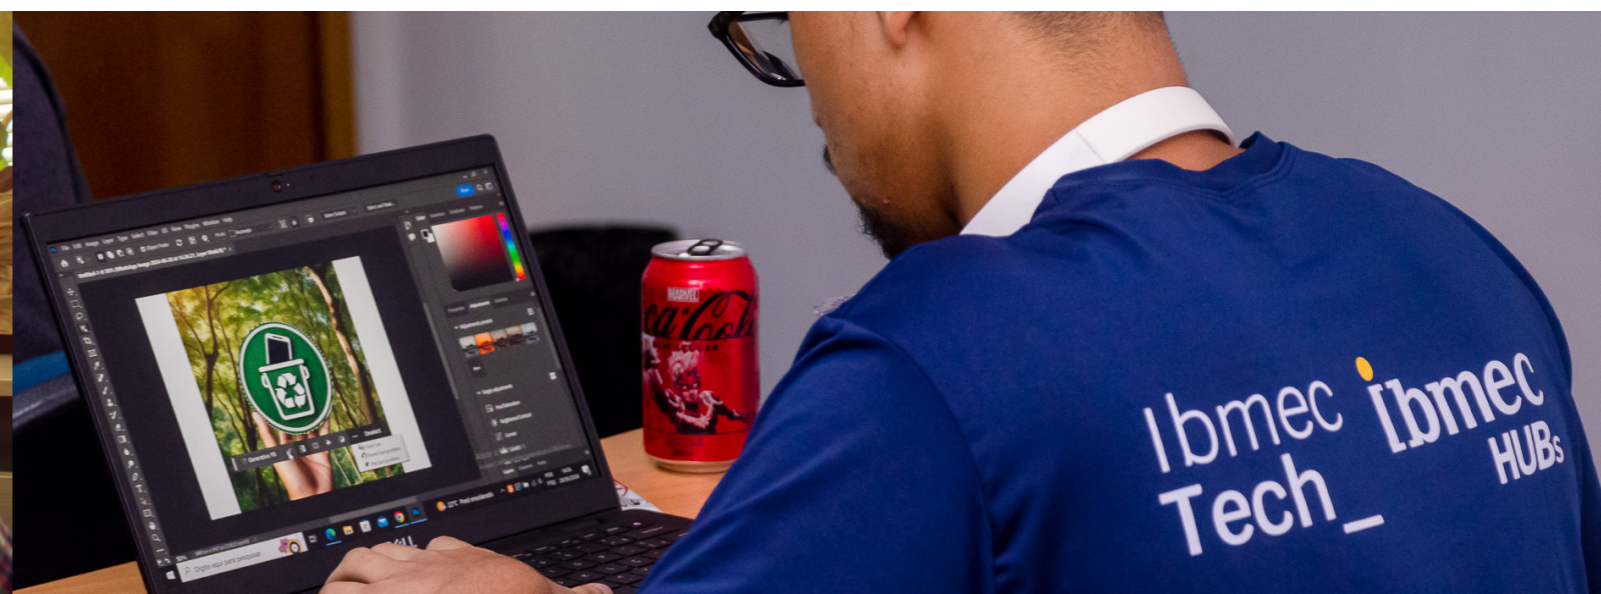

IBMEC TECH - TRANSFORMING KNOWLEDGE INTO INNOVATION: INTEGRATED EXPERIENCE

We witness daily how the convergence of different fields of knowledge drives innovation. With technology as a cornerstone, we are shaping a new generation of leaders ready to tackle the challenges of the global market.

In academic life, integration goes beyond traditional disciplines. We encourage our students to explore the intersections between business, economics, social sciences, engineering, and technology. We believe that this multidisciplinary approach enriches academic training and strengthens the essential skills for their professional future.

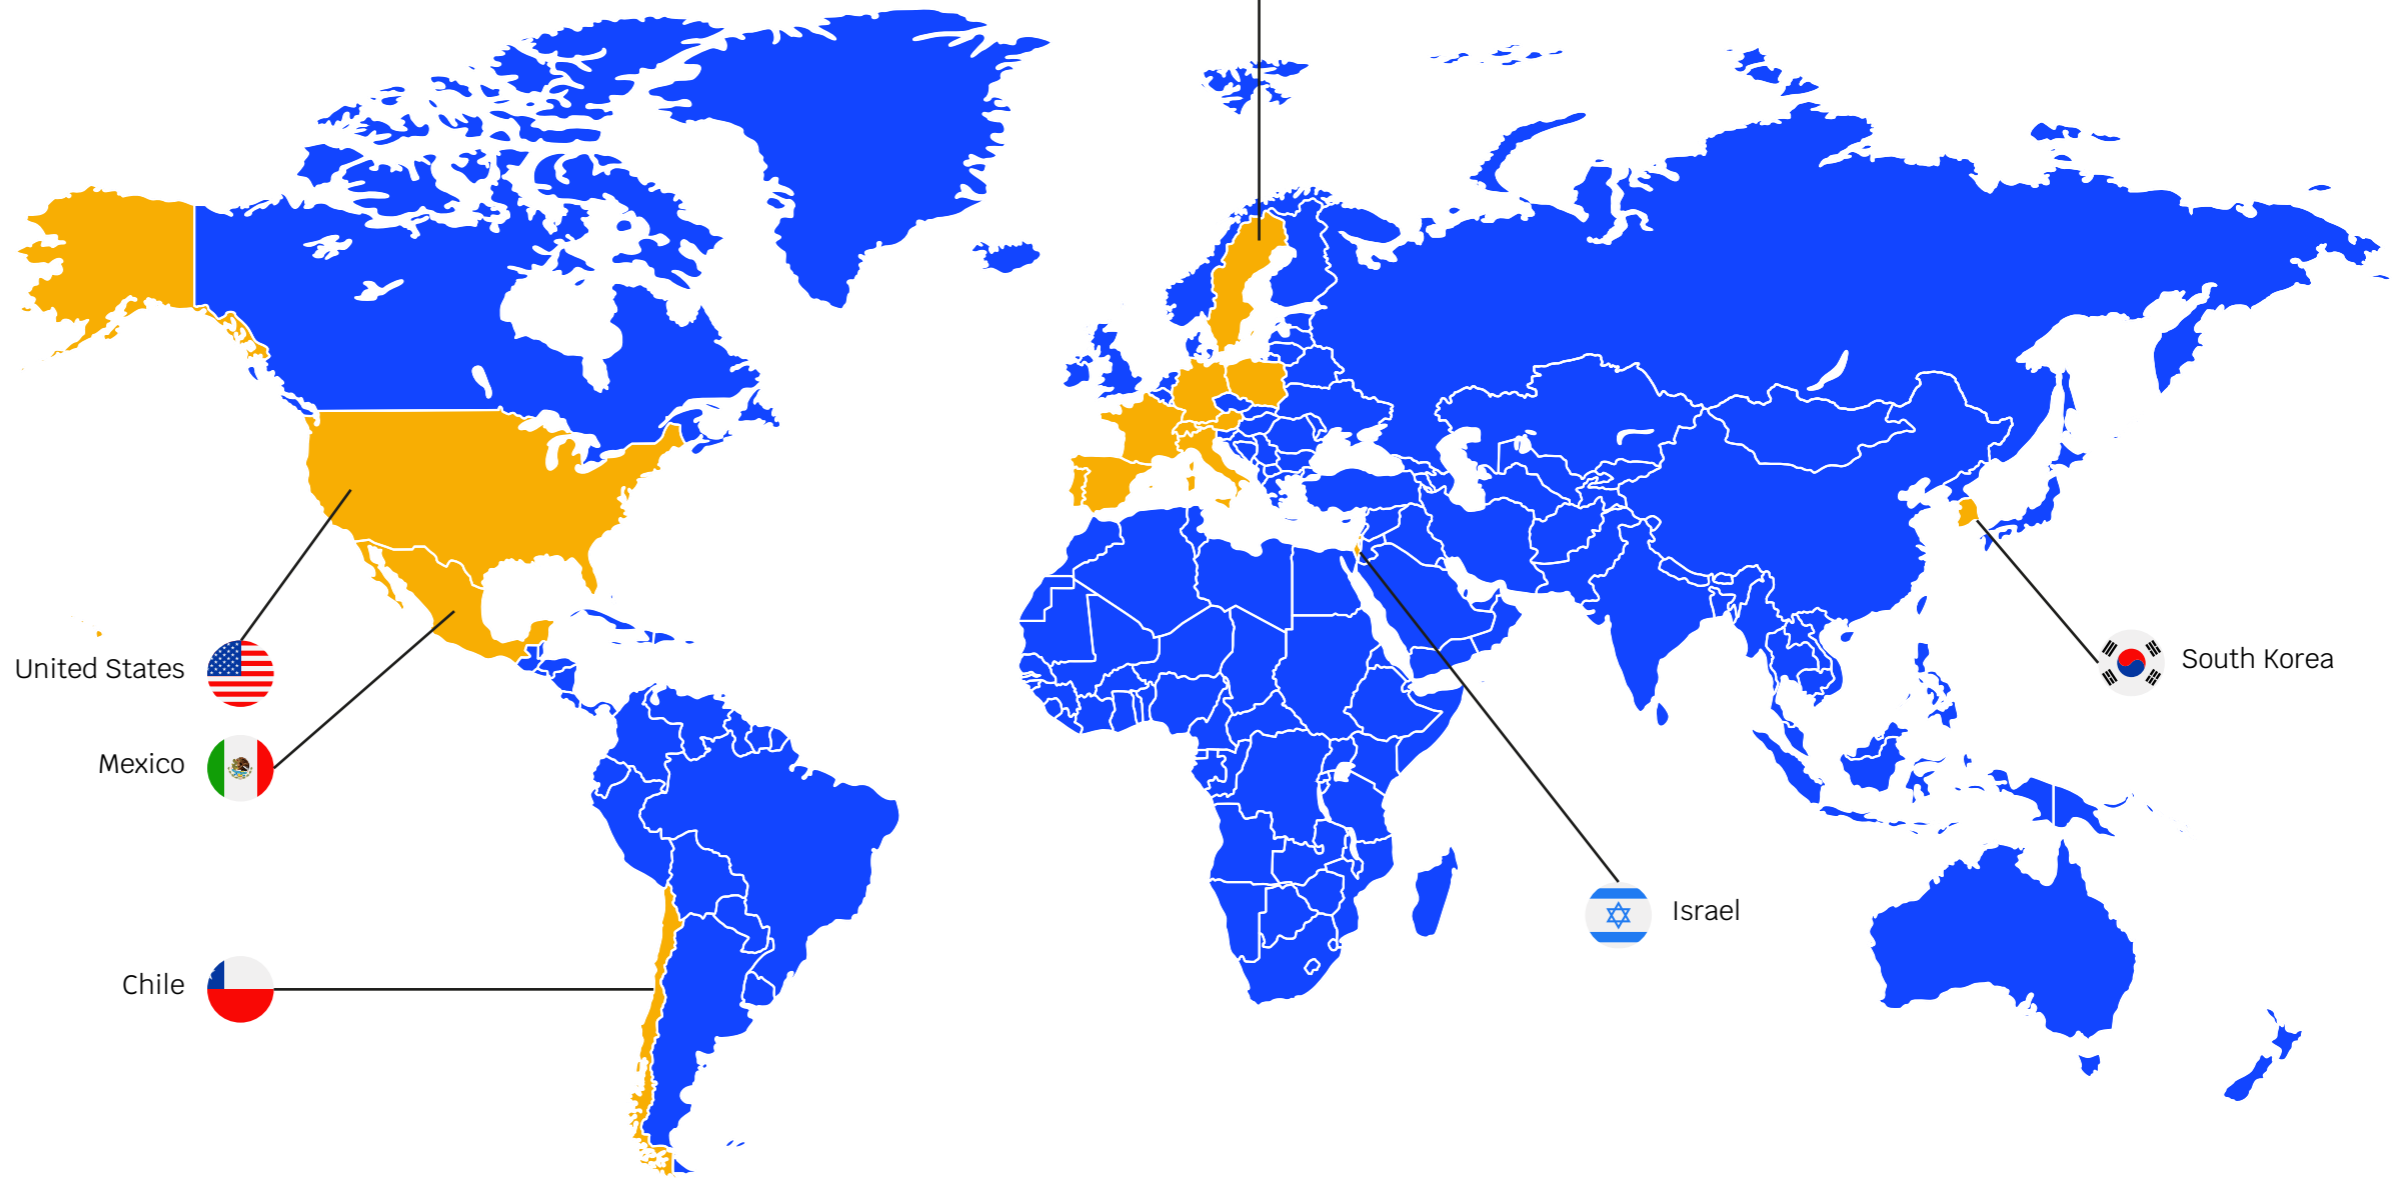

ENTREPRENEURSHIP AND INNOVATION ECOSYSTEM

Our entrepreneurship and innovation ecosystem collaborates in the development of competencies and skills to shape future leaders in two spaces dedicated to experimentation and creativity: the Center for Entrepreneurship and Innovation (CEI), which fosters student connections with the job market through junior enterprises, leagues, and athletic associations; and Ibmec Hubs, which enables the creation of an ecosystem focused on startup incubation, fostering networking with local entrepreneurs, offering mentorship, and building partnerships with companies.
